OBJECTIVE

As a fresh graduate in Information Technology with a solid understanding of algorithms, data structures, and OOP principles, my goal is to apply my technical foundation in full-stack web development to create clean, user-friendly web and mobile applications. I am eager to contribute to innovative projects and grow within a company that values personal development and team success.

EDUCATION

FPT UNIVERSITY

Software Engineer

Major in Web Developer Cumulative

GPA: 3.1/4.0

Da Nang, VN

Sep 2020 - June 2024

WORK EXPERIENCE

FPT Software Company

Web Developer Training

Da Nang, VN

Jan 2023 – April 2023

- Work throughout the software development lifecycle, gathering user requirements to build and develop Charity websites.
- Develop internal web application using HTML/CSS/JavaScript, Java that allows users to view charity programs from organizations and donate money to programs that they feel moved.
- Position: Full-stack.

UNIVERSITY PROJECTS

BCONNECT PROJECT

Jan 2024 - June 2024

- Building a web-based platform to socialize, exchange, buy and sell books for the book-loving community.
- Position: Front-end (1 member).
- Responsibility: Developed user interfaces, designed and implemented responsive web pages, ensured cross-browser compatibility, and collaborated with back-end developers to integrate APIs, optimized data fetching, reloading, and responsiveness, and enhanced the shopping cart feature for multi-device access.
- Tech Stack: HTML/CSS, TypeScript, React, C#, ASP.NET, SQL Server.
- Styling: CSS, LESS, Tailwind CSS, Chartjs, Platejs, Shadcn/ui.
- Tool: GitHub, Figma.
- Deploy: b-connect.vercel.app.

BRENTAL PROJECT

Sep 2023 – Nov 2023

- Developed a web application that allows users to register, rent and return books online easily and conveniently.
- Position: Full-stack.
- Responsibility: Created interactive and dynamic user interfaces, optimized application performance, conducted thorough testing and debugging, and collaborated with back-end developers to integrate APIs. On the back-end, I worked on updating and fixing some functionalities.
- Tech Stack: HTML/CSS, TypeScript, React, Nodejs, NestJS, MongoDB.
- Tool: GitHub, Figma.
- Deploy: book-rent-liart.vercel.app.
